

APRIL 2008

Open water. The water is clear and blue. The sky is blue. The sun is shining. The water is calm. The sky is clear. The sun is bright. The water is deep. The sky is high. The sun is hot. The water is cold. The sky is dark. The sun is low. The water is shallow. The sky is overcast. The sun is hidden. The water is murky. The sky is grey. The sun is dim. The water is choppy. The sky is stormy. The sun is setting. The water is rough. The sky is black. The sun is gone. The water is dark. The sky is silent. The sun is dead. The water is still. The sky is empty. The sun is cold. The water is frozen. The sky is white. The sun is bright. The water is clear. The sky is blue. The sun is shining. The water is calm. The sky is clear. The sun is bright. The water is deep. The sky is high. The sun is hot. The water is cold. The sky is dark. The sun is low. The water is shallow. The sky is overcast. The sun is hidden. The water is murky. The sky is grey. The sun is dim. The water is choppy. The sky is stormy. The sun is setting. The water is rough. The sky is black. The sun is gone. The water is dark. The sky is silent. The sun is dead. The water is still. The sky is empty. The sun is cold. The water is frozen. The sky is white.

The morning sun is shining on the water. The sky is blue. The sun is bright. The water is deep. The sky is high. The sun is hot. The water is cold. The sky is dark. The sun is low. The water is shallow. The sky is overcast. The sun is hidden. The water is murky. The sky is grey. The sun is dim. The water is choppy. The sky is stormy. The sun is setting. The water is rough. The sky is black. The sun is gone. The water is dark. The sky is silent. The sun is dead. The water is still. The sky is empty. The sun is cold. The water is frozen. The sky is white.
